This penalty may be in the form of time or fails added to their overall total, or in aggravated instances, exclusion from the event. Should the normal running of a standard section be interrupted or blocked after the passage of one or more competitors for any reason whatsoever, and it proves impossible to allow other competitors to cover the section competitively, the organisers may give to each crew which has not been able to cover the section in the normal manner a notional time corresponding to the slowest time set up to the moment of interruption. Where a failed manoeuvre or missed action attracts more than one time penalty then only the greater penalty shall be applied. In the event of not starting or attempting a test, then only that time penalty will apply.	

Controls

There will be 8 types of control – Main Control, Time Control, Test Start, Test Finish, Passage Control, Route Checks, Map Check and DSO Checks.

At each Main and Time control, the marshal will enter the time shown on the control clock and sign the competitor's timecard in the appropriate place.

At Passage controls, the marshal will sign the passage card only.

At any Route Check, or in the event of any unmanned Passage Controls, a code board may be used, which will display numbers and/or letters, which must be recorded in the appropriate space and signed for at the next manned control, whether Time or passage (DSOs will NOT countersign code board details).

Any controls visited out of order will be deemed not to have been visited at all.

At DSO Checks, the location of which will not be known in advance by competitors, the control board will be at the site of the control. Competitors must stop and obtain a signature before proceeding.

Sections of the route will contain not as map diagrams. They will be identified on the passage card and accompanying route handout and be preceded by a control board on the correct direction of approach.

All controls will open 30 minutes prior to the due time of car 0 and close as per the maximum lateness allowances shown within these regulations.

A competitor who causes any form of harassment to any marshal / official, or who remains in a control area after an instruction to depart, will be reported to the Stewards and may be disqualified from the event. It is not the duty of any marshal to interpret regulations or any other written instructions. It is the competitor's responsibility to read and understand any regulation or notice. If in doubt, please ask at the start.

Any altered timecard will be accepted ONLY if alterations are countersigned by the marshal at that control. It is the competitor's responsibility to ensure that the marshal countersigns the card; any competitor who alters a card, forges a signature, or defaces it, will be disqualified.

Timing

The event will use the scheduled timing method. Timing will be by digital clocks, set to GMT (Greenwich Mean Time). Competitors are advised to set their watches at the start of the event using the clock provided at signing on.

Standard Sections are sections where a penalty will be applied for late or early arrival. Timing at any time controls on such sections will be when the timecard is presented to the marshal, NOT when the competitor passes the control board. Competitors may NOT reduce lateness at such controls, and may wait for a later time, providing they do not block the road for other competitors or road users.

Special Tests – There will be 2 special tests on the event for which a detailed diagram will be provided. This will show all the controls, route checks and any additional instructions in relation to the test. Timing at the start and finish of the test will be when the competitor presents their timecard to the marshal. In the event of a competitor completing the test in less than the bogey time, the competitor will receive the bogey time.

Neutral Sections will be deemed QUIET sections and are used to take the event through densely populated areas or PR-sensitive areas. Competitors must proceed with the minimum level of noise, in a high a gear as possible and within any designated speed limits for the area. They are timed at a low average speed and must be traversed without the use of auxiliary lights, except as permitted by law when driving in fog, should such conditions arise.

There will be no penalty for reporting late at the end of such sections, but any lateness incurred will be cumulative towards that competitor's maximum permitted lateness.

Any lateness incurred elsewhere cannot be recovered on Neutral Sections.

Transport Sections will be deemed QUIET sections. Competitors must proceed with the minimum level of noise, in a high a gear as possible and within any designated speed limits for the area.

There will be no penalty for reporting late at the end of such sections, but any lateness incurred will be cumulative towards that competitor's maximum permitted lateness.

Competitors may be instructed to reduce lateness at certain points en-route e.g. Main Controls. Competitors may, if they wish, miss one or more controls. They will be penalised in accordance with the Penalties of these regulations for every control missed. If they rejoin at a control at the end of a Standard Section, they will be permitted to restart, without further penalty, at any time between their original scheduled time and their maximum permitted lateness, this being in relation to their original scheduled time. If they rejoin at the end of a Neutral Section, they will only be allowed to restart without further penalty at their official corrected time, taken at the last timed control they reported at within their maximum permitted lateness.

Where a control at the end of a section timed to the second also forms the start of a section timed to the minute, the time allowed for that section will be taken as the time recorded at the last control, ignoring the seconds.

Insurance

Unfortunately, the Motor Club has been unable to secure a blanket cover for the event and therefore all competitors will need to ensure that they have the correct insurance cover for rallying on the public highway in compliance with the road traffic act, and that the Insurance Policy Document is uploaded on to the entry system before the entry is accepted.

Damage

All competitors must complete a damage declaration form at the end of the event. Should any competitor retire from the event, the form must still be completed and signed, stating the reason for retirement and location, or last control visited, and this must be forwarded to the Entry Secretary within 72 hours of the event.

Pace Notes

The use of pace notes and/or any map marking, other than those supplied by the organisers, is expressly forbidden. Navigation of the event must be carried out only using the maps inspected at signing-on by the organisers. Any other form of navigation will be classed as pace notes and will result in that competitor's disqualification. Map checks may be conducted during the event. Diagrams / road book will be issued at MC0 which will have all relevant information included you will need to take to the end of Test 2

Driving Standards Observers

Competitors who fail to stop when requested by a DSO will be disqualified. The presence of a "DSO" board will indicate the presence of such an official in that area.

Service

Service, and any other form of outside assistance, will NOT be permitted during the event. Competitors may, however, work unaided, and may borrow tools or equipment from fellow competitors. The penalty for infringing this regulation is DISQUALIFICATION.
